AutoMatic Mold Jacks[®]

AutoMatic Mold Jacks Eliminate The Need For Pry Bars To Open Molds!

AutoMatic Mold Jacks Prevent Parting Line Damage!

AutoMatic Mold Jacks Reduce Cycle Times!

AutoMatic Mold Jacks Increase Production!

AutoMatic Mold Jacks Can Be Used On Spiders Or Individual Molds!

AutoMatic Mold Jacks Can Save Thousands in Mold Maintenance!

Paladin Sales is offering a unique mold opening device for rotational molders. AutoMatic Mold Jacks[®] (Patent Pending) prevent many problems associated with mold halves sticking together during the unloading process. Sticking molds cause damage to parting lines that can be very expensive to repair. Sticking molds also create extreme stresses on the molding machine and can cause arms to prematurely fail costing thousands of dollars.

For details and an actual Test Case see: <http://www.paladin-sales/amj.html>.

For further information please contact your mold supplier or Paladin Sales.
